Building  
9<sup>th</sup> Avenue at Lincoln Way  
San Francisco

## Cloud Forest Show

**Ted Kipping** is a Life Member of our society as well as many other societies. Ted has lectured widely (12 times in Prague, alone) and has been published in many publications. Our Club has visited his complex and species rich home garden on several occasions. He is a Certified and Consulting Arborist. Although he is deeply interested in the whole plant world, it is the largest - trees - that have paid most of his mortgage. This month Ted will take us to several cloud forests and you know that bromeliads are found in some cloud forests. Let's have a great turnout for Ted this month!

No one has signed up for refreshments this month, but we always seem to have plenty of wonderful contributors.
